NEXT MEETING

Tuesday, 13, January 2004, 7:30 PM
Back door of the Hiller Aviation Museum
San Carlos Airport, California

The guest speaker for this month is a rocket scientist posing as an auto repair shop owner. He operates Pacific Auto Repair in Burlingame. I don't know how long they have been in business but there is a sign on the wall that says they can fix your Hupmobile.

Gary Virelbaum has a hobby of building and firing off rockets. So far he has a certified shot to 16,000 feet and is shooting for 40,000 sometime in the near future. This of course requires clearance from air traffic or when one of these things went whizzing by some air line pilot unexpectedly he would probably whine and carry on something fierce.

Aviation Events 2004
